Second, in December 2018 Complainant filed an employment discrimination action against multiple defendants and a motion to proceed IFP. In January 2019 Judge entered an order granting the IFP motion and directing Complainant to file an amended complaint. Complainant then filed a response, and Judge entered an order dismissing the case without prejudice, finding Complainant failed to comply with the court's order and that his filing failed to establish a basis for the court's jurisdiction or a cognizable federal claim.
Third, in April 2020 Complainant filed a lawsuit against multiple defendants and a motion to proceed IFP. Judge entered orders granting the IFP motion and directing Complainant to file an amended complaint, and Complainant then filed a document. In May 2020 Judge entered an order dismissing the case without prejudice, finding Complainant's document was not an amended complaint and that he failed to prosecute the case.
Complaint
Complainant's Complaint of Judicial Misconduct or Disability includes various documents, and, although not entirely clear, he appears to allege the Subject Judges were biased against him.
Supplements
In Complainant's first supplemental statement, he appears to complain that Judge denied a certain request for injunctive relief and that Judge and Judge engaged in "fraud/abuse." In the second and third supplements, Complainant does not appear to raise any allegations against the Subject Judges.
Discussion
Complainant provides no credible facts or evidence in support of his claims that the Subject Judges were biased against him, engaged in fraud or abuse, or otherwise engaged in misconduct.
The Complaint "is based on allegations lacking sufficient evidence to raise an inference that misconduct has occurred or that a disability exists," JCDR 11(c)(1)(D). For that reason, pursuant to Chapter 16 of Title 28 U.S.C. § 352(b)(1)(A)(iii) and Rule 11(c)(1)(D) of the Rules for Judicial-Conduct and Judicial-Disability Proceedings of the Judicial Conference of the United States, this Complaint is <b>DISMISSED</b> .
